Location of Cardigan

Where is the Cardigan? Relative location: Mount Cardigan point is located relatively north, west of Hopkinton New Hampshire. It is also west of the amc lodge at the Mount Cardigan trip.. Mount Cardigan high cabin is east, south of mount Cardigan point. Mount Cardigan point is north west of the amc lodge at the cardigan trip.

Absolute location: The summit of Mount Cardigan is located at 43 degrees, 38 minutes, and 58.95 seconds north, 71 degrees, 54 minutes, and 37.82 seconds west.

this is a painted picture of the amc lodge

Description of cardigan Place: really really really Descriptive detail

Mount Cardigan is a rocky place where there is a very interesting fire tower that has a little station at the top. There are also a couple of satellites near the top of the fire tower. Next mount cardigan is a fire screw. Its called fire screw

because a while back there was a fire that took place on top of fire screw. It barely left any trees, but they are slowly growing back.

At the mount cardigan field trip, there is also the amc lodge. There you have 4 floors. The first is where you take off your shoes and put down your things. The next is the dinning hall and kitchen. In the dining hall you eat meals, and there is also a spot called the common area. There you can play games and play music. Then there is the girls floor. That is the girls' bunk rooms where they can sleep. Finally there is the boys floor where their bunk rooms are.

3 days at the cardigon trip was awesome! [sunday](#), [monday](#), [tusday](#),
